

SOAKER HOSE

Soaker Hose is a porous flexible rubber pipe which sweats when placed in or on top of the soil, where it acts as a wick. The capillary action of the soil draws water from the pipe, which replaces water used by trees, plants, crops etc. This action delivers water, oxygen and nutrients uniformly through the soil directly to the roots.

All 16mm Soaker Hoses come complete with 16mm Barbed Fittings:- End Plug, Male Hosetail (fits into Soaker Hose pipe), and Tap Adaptor (click fits into standard hose pipe connector).

All 20mm Soaker Hoses come complete with 20mm Barbed Fittings:- End Plug, Male Hosetail (fits into Soaker Hose pipe), and Tap Adaptor (click fits into standard hose pipe connector).

SOAKER HOSE 16mm RETAIL PACKS

- 13mm Internal Bore Diameter

CODE	LENGTH
240.Soak1615R	15M
240.Soak1630R	30M

SOAKER HOSE 16mm BULK ROLLS

- 13mm Internal Bore Diameter
- Bulk Rolls ideal for cutting into sections or running as one length
- We recommend irrigating no more than 50 metres on any single working length from a mains water tap

CODE	LENGTH
240.Soak1650	50M
240.Soak16100	100M

SOAKER HOSE PROBORE 20mm BULK ROLLS

- Probore Soaker Hose is wider in diameter. This larger bore enables watering over a continuous length up to 80 metres. More suited to larger commercial growing areas requiring irrigation.

CODE	LENGTH
240.Soak2050	50M
240.Soak20100	100M

GARDENLINE

- 16mm Pressure Compensated Drip Line
- Outstanding clogging resistance (Colour may vary from that shown)
