

Manufactured from woven polypropylene, Planter Bags are used for the containerisation of trees and hedges as they promote strong root growth through the use of air and drainage holes in the sides and base of the container. The integral handles enable easy transportation either by manual lifting or using a lift truck. Planter Bags are easy to store and easy to dispose of once their useful lifespan is over.

Additional features can be included in the design and manufacture of these products along with bespoke printing of a company's brand or logo on the bag or a label sewn into the seam (minimum order quantity applies).

The TreePlanta range of Planter Bags detailed below are designed to be low and squat in size to give greater stability and are produced in a heavy weight material for rigidity that enables easy filling when potting.

## PLANTER BAG

CODE	CAPACITY (Litres)	DIA (CM)	HEIGHT (CM)	UV	LAMINATION	NO. OF HANDLES	COLOUR	PACK QTY
233.PBag15	15	25	32	Yes	Yes	2	Green	300
233.PBag27	27	35	28	Yes	Yes	2	Green	200
233.PBag36	36	40	29	Yes	Yes	2	Green	120
233.PBag45	45	42	34	Yes	Yes	2	Green	100
233.PBag53	53	46	32	Yes	Yes	2	Green	100
