

After 10 years of development and product testing with the world's foremost experts, bpi.visqueen is proud to introduce a new generation of horticultural film technology: Lumisol Clear and Lumisol Diffused.

Lumisol film helps growers create an optimum growing environment by actively managing light transmission, diffusion and temperature.

Benefits you can expect from LUMISOL include:

- Extending Seasons
- Hardier Crops
- Anti-Fog Properties
- Improved Control of Economically Important Pests & Diseases
- Temperature Control
- Unrivalled Crop Quality
- Anti-Condensation Properties

LUMISOL:

- 180mu (720 gauge)
- UVI/EVA
- Anti-Fog
- 5-Season guarantee

LUMISOL "Clear" 5S

- Recommended for use with bedding plants, flowers, salad crops, and strawberries.

CODE	WIDTH (Metres)
105.POLY7.3LC	7.3
105.POLY9.2LC	9.2
105.POLY11.1LC	11.1
105.POLY14LC	14

Minimum Cut Length is 16 metres

LUMISOL "Diffused" 5S

- Recommended for use with nursery stock and ornamental plants which require good growth.

CODE	WIDTH (Metres)
105.POLY7.3LD	7.3
105.POLY9.2LD	9.2
105.POLY11.LD	11.1
105.POLY14LD	14

Minimum Cut Length is 16 metres

Data Sheets available on request

WHITE UVI 5S

- For growing plants requiring shade and cooler day temperatures.
- Recommended for use with nursery stock, conifers, and ferns.
- 180mu (720 gauge)
- UVI/EVA Thermic 5 Season guarantee
- Light Transmission (%) 67
- Diffusion (%) >90
- Thermicity (%) 55

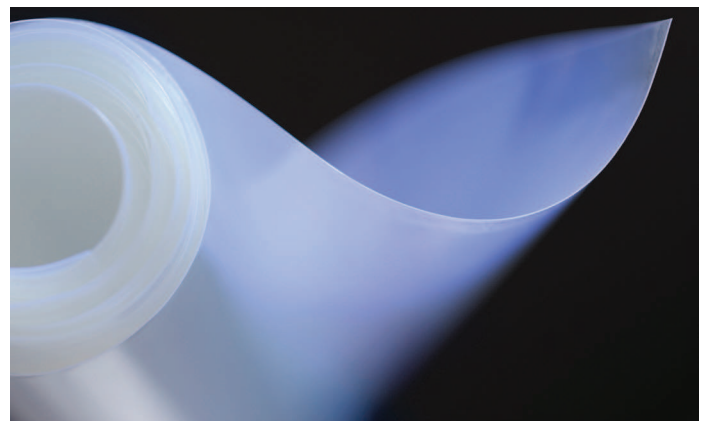

CODE	WIDTH (Metres)
105.POLY9.2W	9.2
105.POLY11.2W	11.2
105.POLY12.5W	12.5
105.POLY15W	15

Minimum Cut Length is 16 metres

WHITE NARROW FILM

- For shading, screening, and many other uses
- 30mu (120 gauge)

CODE	SIZE (Metres) W x L
174.POLY2W	2 x 400

GREEN/WHITE 5S

- Mushroom growing
- Animal shelter film
- 200mu (800 gauge)
- Co-extruded Polythene 5 Season guarantee
- Complete opacity cover formulation for Mushroom Growers
- Reflection from white surfaces (%) 90
- Thermicity (%) 55

CODE	WIDTH (Metres)
105.POLY14GW	14

Minimum Cut Length is 16 metres
