## NATURE'S HAVEN EASY WILDFLOWERS

Wildflower seed mixes are growing in popularity as gardeners look to boost biodiversity in their gardens.

Native flowers species attract a wide range of insects that can help to pollinate other flowers, fruit, and vegetables in the garden. These insects in turn attract a range of predatory insects such as hoverflies and ladybirds, which will help to keep pest insect populations under control. Birds will follow, either looking to make a meal of the insects or the flower seeds. Small mammals, frogs and toads will all follow suit, building up a healthy eco-system.

This all in one seed mix contains a good variety of wildflowers, plus the perfect mix of granular compost and starter feed to provide months of colour. Simply scatter the Nature's Haven Easy Wildflowers mix evenly across prepared soil, rake to bed-in and water in.

## NATURE'S HAVEN EASY WILDFLOWERS 1.5kg

- Perfect 3 in 1 mix of: Wildflower seeds, Granular compost, Starter feed.
- Selected to attract bees, butterflies and other beneficial insects.
- Contains: Corn Poppy, Cornflower, Corn Marigold, Ox-Eye Daisy
- Attract bees, butterflies and other beneficial insects.
- Simple to grow.
- Free flowering.
