

1-piece classic plant support made from sturdy galvanised steel.

This plant support is simply placed in the ground and provides a maximum support for your (border) plants.

It is made from sturdy galvanised steel with dark-green coating. As a result it does not rust and can stay outside all year round.

This plant support is available in two designs:

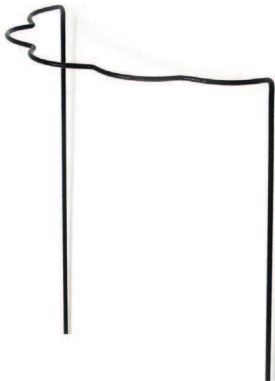

- The Classic Half Circle
- The Scalloped Half Circle

## The Quick and Easy Way to Support your Plants!

## TWISTERS PLANT SUPPORTS

### Extendable plant supports

- Made from galvanised steel - diameter 320mm
- Extended as required up to approx 2 metres
- Collapsible for easy storage
- Supplied complete with pegs to secure the supports to the earth
- Quick and easy to erect
- Use indoors or out

Cut your cane (not supplied) to required height, insert the hooked end into the top of the cane, stretch the Twisters down to the soil & secure with the peg supplied. Suitable for use with many plants including climbers, flowering plants or vegetables. They are the simplest way to support any plant that needs it. The plants are allowed to grow naturally up the Twisters. In winter simply rinse off and store flat or on a hook in the shed. Compact design means you can grow your own vegetables - tomatoes, beans etc - even if you only have enough space for one or two pots.

*Robust, long lasting, versatile, simple and safe to use.  
A simple solution to a long standing problem!*
