

## WATER SOLUBLE FERTILISERS

Standard Solufeed water soluble fertilisers for crops grown in soil and artificial growing media. All containing magnesium (Mg) and premium levels of trace elements.

### Solufeed 1:1:1

- A good starter feed for balanced growth
- Reliable for most crops and situations
- 1kg pack

CODE	DESCRIPTION	BARCODE
125.GB0251W	NPK 18:18:18+3MgO	05391513337611

### Solufeed 4:1:2

- High Nitrogen (N) for vigorous vegetative growth
- 1kg pack

CODE	DESCRIPTION	BARCODE
125.GB0253W	NPK 28:7:14+3MgO	05391513337628

### Solufeed 2:1:4

- High Potassium (K) finishing fertiliser for flowering and fruiting growth stages
- 1kg pack

CODE	DESCRIPTION	BARCODE
125.GB0257W	NPK 15:7:32+3MgO	05391513337642

### Solufeed 1:5:1

- High Phosphorus (P) to promote root growth and crop establishment.
- 1kg pack

CODE	DESCRIPTION	BARCODE
125.GB0255W	NPK 10:52:10+1MgO	05391513337635

## WATER RETAINING GRANULES

### Solusorb A

Solusorb A is a synthetic superabsorbent polymer designed to improve the water retaining properties of many types of growing media with applications in the agriculture, horticulture, forestry, and amenity sectors.

- Use 1-3kg per m<sup>3</sup> (1-3g per litre)

CODE	SIZE	BARCODE
125.GB0550	1kg	05391513335334

## NATURAL SOIL CONDITIONER

Fulvic 25 is a new, natural and sustainable fulvic acid formulation which is a simple by-product of a potable water purification process rather than the traditional high energy, chemical production method.

### SOLUFEEED FULVIC BIO

An easy to use liquid that restores and improves soils for enhanced root function.

**Size: 500ml**

PRODUCT CODE	BARCODE
125.GB1106	05391530650595

## The Garlic Barrier Range of Products

*Growing naturally, as nature intended*

Solufeed products are based on natural garlic and other plant extracts which help with growing healthy, productive crops with zero residues in a sustainable way. In turn, the need for synthetic chemicals is much reduced or eliminated altogether.

### ANTHYLLIS™

For general plant health. Encourages resistance to botrytis. **Size: 1 Litre**

PRODUCT CODE	BARCODE
125.GB1502	05391530650434

### BUGZOF™ 2

A natural plant invigorator that encourages resistance to aphids and spider mites etc.

**Size: 1 Litre**

PRODUCT CODE	BARCODE
125.GB1509	05391530650441

### FUNGOZ™

Encourages resistance to mildew and botrytis. **Size: 1 Litre**

PRODUCT CODE	BARCODE
125.GB1504	05391530650458

### TREECARE™

Stimulates growth, gives vigour to trees and bushes and helps produce clean fruit.

**Size: 1 Litre**

PRODUCT CODE	BARCODE
125.GB1520	05391530650472

## The Garlic Wonder Range of Products

*Growing naturally, as nature intended*

*Garlic Wonder Products stimulate growth and make good healthy root systems, giving vigorous plants with far greater resistance to attack from insect pests and fungal diseases.*

*These new products are for gardeners who want to use natural methods to grow their plants. They are a unique blend of extract of garlic and natural ingredients that produce no chemical residues, are safe to use and safe in the environment where pets and wildlife are present.*

*The products are safe, natural plant conditioners for growing plants with zero residues in a sustainable way, reducing or eliminating the need for chemical treatment.*

*Garlic Wonder can be used with confidence on vegetables, fruits, flowers and shrubs.*

### GARLIC WONDER ORGANIC SPRAY RTU and CONCENTRATE

Use of Garlic Wonder Organic Spray with its high sulphur and selenium content in a programme of treatments will stimulate growth, encourage resistance to mildew and botrytis etc. and repair damage caused by fungal and viral diseases. When used as directed, Garlic Wonder is safe in the environment and harmless to earthworms, bees, ladybirds, lacewings and other beneficial insects. Garlic Wonder treated plants become odourless within minutes and its use does not result in any after taint or flavour. Apply little and often is best.

- For use on all house and garden plants.
- Suitable for use in organic gardening.
- Adds no garlic smell or taste.
- Can be used right up to harvest.
- Plant growth not retarded by chemical setback.

### GARLIC BARRIER PRUNING PAINT

A pruning paint for use in many cultural situations to improve pruning and grafting hygiene and reduce the risk of harmful disease infection and associated losses.

**Size: 750ml in outers of 12**
