

It's all about the roots

www.jiffygroup.com

Jiffy continues to develop its 'Born Sustainable' principle with all product ranges now featuring peat reduced and peat free options including Coir Growbags and Growblocks.

Jiffy provide a range of propagation solutions including Jiffy 7s (pellets), Preforma; a fully bound plug produced with a unique binding agent, and a range of specially developed mixes. Alongside this, Jiffy has the fastest growing degradable pot range, offering superior root growth and greatly reduced potting costs compared to plastic. With retailable options available with colour printing and POS information.
