GRO-TEX 105 GROUND COVER (105g/m²)

Green Grid 15cm x 15cm

Gro-tex 105 Ground Cover targets 7 year UV stability in normal Northern European conditions, with excellent weed suppression and water permeability.

- Distinctive green grid marker to aid positioning of pots and plants
- Easy installation and maintenance
- Re-usable over many seasons
- Can resist machine and pedestrian traffic
- Engineered with resistance in mind for machine and pedestrian traffic

Gro-tex 105 Ground Cover is ideal for us in:

- Outdoor growing areas, polytunnels, glasshouses and on benches
- Production of bedding and pot plants
- Production of soft and top fruit
- Capillary, sand and gravel beds
- Organic growing systems

GROWERS FLEECE

FEATURES

- Doesn't damage crops
- Easy to handle & lightweight
- UV stabilised
- High air & moisture permeability
- Reduces pest damage
- Promotes an earlier crop

Crop protection fleece is made from non-woven spun bonded polypropylene and has been developed to be durable yet very strong. Ideal frost protection for all agricultural and horticultural needs. Fleece creates an excellent microclimate promoting growth of crops to increase yields for a potentially earlier harvest. It provides protection from frost, keeping the crop temperature above a critical level.

Fleece has been tried and tested in the toughest of climates. Due to its unique construction it regulates the temperature through day and night. This gives your crop that added protection, allowing for a much improved, earlier yield in this competitive market.

FLEECE (17g/m²)

| CODE | WEIGHT | ROLL WIDTH (M) | ROLL LENGTH (M) | BARCODE |
|---------------|--------------------|----------------|-----------------|----------------|
| 255.17FL2x100 | 17g/m ² | 2 | 100 | 05391530651820 |
